We have capacity for a maximum of 65 general nursing residents, and usually our staffing levels consist of:

- Day care: Two registered nurses and eight care assistants
- Night care: Two registered nurses and four care assistants

Please note that the actual level of care that each resident will receive in our home, will depend on their individual care needs and may fluctuate depending on the needs of residents at any given time.

Care staff are supported by a wider team including home and deputy managers, activity coordinators, maintenance, domestic team, catering team, administrators and chaplain who all supplement care.

Additional staffing arrangements

- 24-hour call system installed in all residents' rooms
- Automated monitoring technology to check residents' movements while asleep, which alerts staff at a central monitoring station to any possible issues or concerns which could require staff to intervene
- All floors are managed by a registered nurse, who assesses when extra carers may be needed if needs change
